

# CERTIFICATE OF APPRECIATION

AWARDED TO

**Yuhao Ge**

For being an Awesome Amazonian

Nominated by: Sheng Xu

For exceptional Invent & Simplify and Bias for Action amazing work during his internship. His autotuning project is easily one of the most influential internship projects, directly improving the peak optimal performance seen on Trainium and establishing an easy-to-use and general framework for autotuning. His work can lead up to the development of a new autotuning component for Neuron. His documentation and presentation of his work was also excellent.

Awarded this 9 day of August, 2024
